

Southern California Development Forum Presents...

Tuesday, June 10, 2014 - 7:00am-9:00am

Elephants, Disruptors and the Undecided

What are the strategies of the Elephants, Disruptors and Undecided for today's Healthcare Systems? With the present state of affairs in healthcare reform, the current thinking is that the large systems will thrive and get larger, and that there will be "disruptors" like Uber in the healthcare space – while others are still "undecided."

Come to our June Program and hear directly from our private and public healthcare leaders about the owners' delivery planning strategies for Southern California's healthcare dynamics and what the impact will be on design & construction. Learn how healthcare, through strategic master planning and systems, is creating economic opportunities for local design, development and construction.
