# Advancing Equitable Development - Viewpoints from Municipalities

**Tuesday, January 19, 2021**  
**12:00pm-1:15pm**

## Virtual Town Hall via Zoom

All money raised will benefit our chosen philanthropies - Homeboy Industries and 2nd Call

Continuing our commitment to conversations around justice, equity, diversity, and inclusion in the built environment, please join SCDF for a stimulating panel, centered from the municipal vantage point, and learn what they are doing to advance equitable development. Discover how sustainable development can help cities spur growth that meets low-income communities' economic, health, and transportation needs while providing opportunities for local and emerging businesses.

Join the discussion to see how various municipalities can empower marginalized neighborhoods - often the victims of gentrification - while promoting new development. Perspectives will be presented from multiple cities and encompass what they must do and who they engage with to spur inclusivity and equity to allow all community members to flourish.
