

**Southern California  
Development Forum**

# Science & Technology – The New Frontier

**Tuesday, July 28, 2020  
1:00pm-2:15pm**

## **Virtual Town Hall via Zoom**

All money raised will benefit our chosen philanthropies –  
Homeboy Industries and 2nd Call

With the race to the COVID-19 vaccine underway and as we learn more each and every day about the transmission of COVID-19, the life sciences and biotechnology industry is at the forefront of developing new advancements to mitigate future risks that affect public health.

Please join us for a virtual town hall featuring an expert panel who will be discussing their industry's short-term and long-term goals and priorities, how they are preparing their organizations to be better equipped to succeed, and updates on any upcoming capital projects their organizations may be planning.

After the panel discussion, virtual breakout rooms will be provided to allow attendees to network with fellow attendees.

### **MODERATOR**

Sean Fowler
